

ANSTO User Meeting 2019

Tuesday, 3 December 2019

Session 14: Structural biology and biological systems - T5 (Part 3) (10:45 - 12:15)

time	[id] title	presenter
10:45	[53] Nano and Microstructure Investigation of Silk Fibroin-Based Hydrogels for Biomedical Applications: A Small Angle Scattering	MATA, Jitendra
11:00	[3] Structural basis for the recognition of nectin adhesion proteins by the Natural Killer cell receptors, TIGIT, CD96 and DNAM-1	Dr BERRY, Richard
11:15	[23] Protein-Eye View of the in Meso Crystallization Mechanism	VAN 'T HAG, Leonie
11:30	[58] Ionising Radiation and Cell Membranes	HOLT, Stephen
11:45	[12] Cytoplasmic accumulation of the Alzheimer's disease- and ALS-linked RNA-binding protein SFPQ by zinc-induced polymerisation	Dr LEE, Mihwa
12:00	[19] Molecular Mechanisms governing $\alpha\beta$ T-cell receptor autoreactivity towards CD1b	SHAHINE, Adam
