

AOFSRR 2015 in conjunction with User Meeting 2015

Friday, 27 November 2015

Surface Science - Conference Rooms (11:00 - 12:30)

-Conveners: Kane O'Donnell

time	[id] title	presenter
11:00	[20] Functionalization of graphene via foreign atoms intercalation	Dr HWANG, Chan-Cuk
11:30	[120] Synchrotron studies of chemotherapy drugs and their interactions; a novel application for graphene?	Prof. WELLS, Justin
11:50	[70] Formation and characterisation of a silicon terminated (100) diamond surface	Mr SCHENK, Alex
12:10	[55] Reversible intermediate energy state of CVD graphene: A signature of rippling?	Mr WAHAB, Hud
