

AOFSRR 2015 in conjunction with User Meeting 2015

Wednesday, 25 November 2015

Energy Materials I - Oliphant Auditorium (14:00 - 15:30)

-Conveners: Paul Webley

time	[id] title	presenter
14:00	[122] In Situ X-ray Diffraction Investigation of the Evolution of Pb-Oxide/Pb-Sulfate Surface Layers on Pb-Alloy Anodes	WEBSTER, Nathan
14:30	[37] Effects of Ag-Embedment on electronic and ionic conductivities of LiMnPO ₄ and performances as a cathode for lithium-ion batteries	Dr AHN, Docheon
14:50	[79] Analysis of Manganese Dioxide Electrochemical Capacitors using Synchrotron Methods: Determining the Effects of Material Properties on Electrochemical Performance	Ms DUPONT, Madeleine
15:10	[84] Synchrotron imaging of metallurgical coke for analysis of coke quality	Dr JENKINS, David
