

ANBUG-AINSE Neutron Scattering Symposium, AANSS 2020

Friday, 13 November 2020

Advanced Materials: Session 6 (09:00 - 10:50)

-Conveners: Karyn Jarvis

time	[id] title	presenter
09:00	[117] Kinetic Analysis of Oil Exchange between Surfactant-Stabilized Emulsions Using Time- Resolved Small Angle Neutron Scattering	Prof. POZZO, Lilo D
09:30	[105] Defect structure-property correlations in Li doped BaTiO ₃	Dr NARAYANAN, Narendrakumar
09:50	[42] Effect of molybdenum on the precipitation in ferritic niobium-containing steels produced by strip casting	JIANG, Lu
10:10	[2] Investigating the Aqueous Swelling and Stability of Plasma Polymerised Acrylic Acid Films	JARVIS, Karyn
10:30	[41] Morphological transitions in aqueous surface active ionic liquid influenced by additives investigated through SANS	Mrs JAIN, Monika
