

Renewal of Computer Systems at ANSTO Centre for Accelerator Science

Wednesday, 19 October 2022 11:00 (20 minutes)

This talk will outline steps that are being taken at the ANSTO Centre for Accelerator Science (CAS) to renew and restructure our ageing network and computer systems assets. This process is aimed at modernisation of CAS IT and OT infrastructure to facilitate more efficient collection, storage and processing of electronic data, providing staff and customers with greater overall system visibility and reinforcing a positive user experience.

Presenter: REES, Matthew (ANSTO)

Session Classification: IC-CoP

Track Classification: IC-Cop (Controls)
