Australian Synchrotron User Portal

Thursday, 20 November 2014 17:30 (1h 30m)

The User Portal facilitates all aspects of user engagement with the synchrotron from proposal submission, down to processing data on massive and inputting subsequent publications. Ongoing development aims to enhance user experience, improve access to data and increase reporting output; for the users, the Australian Synchrotron and funding bodies.

Keywords or phrases (comma separated)

user, portal, software

Primary author: BAIRD, Lauren (Australian Synchrotron)
