

User Meeting 2014

Thursday, 20 November 2014

Beamlines, Instrumentation and Techniques I - Conference Room AS (15:30 - 16:50)

-Conveners: Chris Hall

time	[id] title	presenter
15:30	[110] X-ray Imaging at IMBL: Detailed Considerations of Contrast and Resolution	Dr STEVENSON, Andrew
15:50	[78] Absolute Dosimetry using a Graphite Calorimeter on the Imaging and Medical Beamline at the Australian Synchrotron	Dr HARTY, Peter
16:10	[48] Characterisation of the PTW microDiamond detector for high spatial resolution dosimetry in microbeam radiation therapy at IMBL	Dr LIVINGSTONE, Jayde
16:30	[58] Spatial dosimetric response of an ionisation chamber to kilovoltage synchrotron radiation by 2D scanning in a sub-millimetre beam	Dr BUTLER, Duncan
