

User Meeting 2014

Thursday, 20 November 2014

Advanced Materials I - Sponsored by AXAA - Conference Room AS (11:00 - 12:30)

-Conveners: Charlotte Conn

time	[id] title	presenter
11:00	[25] Characterization of nanoscale precipitates in a new 2GPa strength steel using small angle x-ray scattering	Prof. HUTCHINSON, Christopher
11:30	[6] In-situ Small Angle X-ray Scattering Investigation of Formation of Meso-porous Silica Nanoparticles and Swelling-Shrinking Growth Mechanism	Mr YI, Zhifeng
11:50	[134] Materials Characterisation and X-ray Free Electron Laser Science at the Centre of Excellence for Advanced Molecular Imaging	Dr ABBEY, Brian
12:10	[27] Competition in phase formation during crystallisation of Al-Ni-Y metallic glasses	Dr STYLES, Mark
