

User Meeting 2016

Thursday, 24 November 2016

Concurrent Session 2: Structural Biology I - Sponsored by DECTRIS (13:30 - 15:15)

-Conveners: Begoña Heras

time	[id] title	presenter
13:30	[264] The role of protein dynamics in the evolution of new enzyme function	Prof. JACKSON, Colin
14:00	[267] Structural and Functional Insight into the Epigenetic Regulator SMCHD1	Dr CHEN, Kelan
14:15	[214] Structural characterization by Small Angle Scattering suggests models for monomeric and dimeric forms of full-length ezrin	Dr DUFF, Anthony
14:30	[198] Chemical Crystallography at the Australian Synchrotron MX Beamlines	Dr PRICE, Jason
14:45	[283] Structural Insights into the Assembly and Regulation of Distinct Viral Capsid Particles	FORWOOD, Jade
15:00	[239] Investigation of protein stability and activity in Ionic liquids (IL) to control 3D Structure and Function of Simple and Complex Biomolecules in a quantitative and systematic manner.	Ms MOHANDASS, Radhika
