

User Meeting 2016

Friday, 25 November 2016

Concurrent Session 3: Radiotherapy I (11:00 - 12:30)

-Conveners: Jeffrey Crosbie

time	[id] title	presenter
11:00	[281] Clinical synchrotron radiotherapy programs from a medical physicist point of view	Dr ADAM, Jean-François
11:30	[175] Differential response of Diffuse Intrinsic Pontine Glioma cell lines to microbeam versus conventional radiotherapy	Mr SMYTH, Lloyd
11:45	[200] Breast cancer rotational radiotherapy with synchrotron radiation	DI LILLO, Francesca
12:00	[224] Synchrotron MRT radiation induces DNA damage and inflammatory response in normal mouse tissues distant from the irradiated volume	Mrs VENTURA, Jessica
12:15	[277] Optimizing Microbeam Radiation Therapy with High-Z Nano-structured Ceramic Particles	Prof. LERCH, Michael
