

User Meeting 2018

Friday, 23 November 2018

Parallel Session 10: Advanced Materials 2 & Soft Matter 2 - Sponsored by Melbourne Centre for Nanofabrication (MCN) - Oliphant Auditorium (11:00 - 12:30)

-Conveners: Stephen Holt

time	[id] title	presenter
11:00	[51] Protective Frameworks for Biomolecule Applications	Dr DOHERTY, Cara
11:30	[61] Using SAXS/WAXS to determine the influence of collagen structure on material properties within acellular dermal matrix materials.	Dr WELLS, Hannah
11:45	[60] Stiffness of modified collagen fibril structures manipulated by moisture content	KELLY, Susyn
12:00	[65] Insights into flash-nanoprecipitated drug solubilisation during in vitro digestion in milk using the SAXS/WAXS beamline	SALIM, Malinda
12:15	[39] Liquid Crystalline Structures in Digesting Milk-like Emulsions and Their Potential for Drug Delivery Studied Using Small and Wide Angle X-ray Scattering	CLULOW, Andrew
