

User Meeting 2018

Friday, 23 November 2018

Parallel Session 11: Surfaces - Seminar Room (11:00 - 12:30)

-Conveners: Chris McNeill

time	[id] title	presenter
11:00	[71] ARPES - A Toolbox for Surface Discoveries	Dr GRUBISIC-CABO, Antonija
11:30	[57] Demonstrating an electric field-tuned Topological Phase Transition in ultra-thin film Na ₃ Bi using ARPES and STM	Mr COLLINS, James
11:45	[99] Substrate dependent ultrafast charge transfer dynamics in self-assembled monolayers with intramolecular orbital coupling – a combined spectroscopic and computational study	ANNADATA, Harshini
12:00	[74] Understanding the effect of thionation on naphthalene diimide using first-principles predictions of near-edge x-ray absorption fine structure spectra	Ms RUNDEL, Kira
12:15	[93] Calcium and Magnesium Intercalation of Graphene on Silicon Carbide	Mr KOTSAKIDIS, Jimmy
