

User Meeting 2018

Friday, 23 November 2018

Parallel Session 15: Advanced Materials 3 (13:15 - 14:30)

-Conveners: Rosalie Hocking

time	[id] title	presenter
13:15	[29] Overview of in-situ synchrotron X-ray imaging and powder diffraction techniques for Pb-free micro-electronic interconnects	NOGITA, Kazuhiro
13:30	[31] Production of Light Metal Alloy Powders by Reduction of Metal Oxides	Dr CALLOCH, Pauline
13:45	[95] In-situ X-ray Diffraction Studies on Age Hardening of Mg alloys	KADA, Sitarama R.
14:00	[87] Synchrotron based techniques for studying energy storage materials	Dr GU, Qinfen
14:15	[64] In situ small-angle x-ray scattering measurements of ion track etching in polymers	Mr KIY, Alexander
