PyDM Training Workshop - Part A

Tuesday, 13 November 2018 09:30 (1 hour)

This workshop is intended to introduce new users to PyDM. It will first cover the basics of making new drag-and-drop displays in Qt Designer, then progressively enhance the basic display with the “widget rules” system, and finally converting it into a Python code-based display.

Primary authors: GIBBS, Matthew (SLAC National Accelerator Laboratory); Mr SLEPICKA, Hugo (SLAC National Accelerator Laboratory); Mr RENDAHL, Theodore (SLAC National Accelerator Laboratory)

Presenters: GIBBS, Matthew (SLAC National Accelerator Laboratory); Mr RENDAHL, Theodore (SLAC National Accelerator Laboratory)

Session Classification: Workshops/Trainings

Track Classification: OPI Development
